JOURNAL OF PATHOLOGY, VOLUME 120

INDEX OF SUBJECTS

PAGE

ADENOVIRUS infection, sequential changes in the kidneys of dogs which developed focal interstitial nephritis following experimental infection with CAV . 221
APE(S), mucosal herniations in the colons of non-human primates . . . 177
ARTHRITIS, RHEUMATOID, pathology of the cervical spine 91
ARTHUS REACTION and mixed hypersensitivity reaction in rabbits, biochemical and cellular changes in skin and lymph 49
ASPIRIN and phenacetin administered to homozygous Gunn rats, comparison of degree of analgesic papillary necrosis 145
damage in the rat kidney in the intact animal and after unilateral nephrectomy 43

BASEMENT MEMBRANE, GLOMERULAR, experimental kidney disease in dogs produced by injection of heterologous antisera to dog tubular fraction 3 antigen . 17
BILIRUBIN-associated renal papillary necrosis in the homozygous Gunn rat, light- and electron-microscopic observations 165
BOVINE SERUM ALBUMIN and egg albumin injections in female Wistar strain rats, morphometry of the glomerular epithelial cell and its foot processes . . 209

CARCINOGENS, 4-hydroxyaminoquinoline-1-oxide-induced ultrastructural changes in the guinea-pig exocrine pancreas 109
CAT, histochemical study of inflammatory cells in duct-ligated salivary glands . 115
CERVICAL SPINE in rheumatoid arthritis, pathology of 91
CHICK(S), degranulation of heterophil leucocytes during phagocytosis studied by phase contrast and interference microscopy 129
CINEPHOTOMICROGRAPHY, degranulation of chicken heterophil leucocytes during phagocytosis, studied by phase contrast and interference microscopy . 129
COLON, mucosal herniations in non-human primates 177
CORPUS CALLOSUM, agenesis of, with epignathus and double pituitary . . 161
CREATINE PHOSPHOKINASE molecule, formation of a platelet adhesive factor by disruption of 1
CRYOIMMUNOGLOBULIN IgGK with microtubular ultrastructure associated with pyoderma gangrenosum . . . 25

DIAPHRAGM, cross sectional area of muscle fibres in emphysema, measured by an automated image analysis system . 121
DOG(S), experimental kidney disease produced by injection of heterologous antisera to dog tubular fraction 3 antigen 17
immunopathologic study of interstitial nephritis associated with experimental adenovirus infection . . . 221
leptospirosis, an immunopathological study of interstitial nephritis due to Leptospira canicola . . . 83
DUCK(S), histopathology of zinc deficiency 183

ELECTRON MICROSCOPE STUDY, analysis of lymphoreticular cell interactions in primary cultures of human non-lymphoid neoplasms and lymphomas. 75
aspirin damage in the rat kidney in the intact animal and after unilateral nephrectomy 43
bilirubin-associated renal papillary necrosis in the homozygous Gunn rat . 165
cardiac biopsy in skeletal myopathy, report of a case with myocardial mitochondrial abnormalities . . . 35
cryoimmunoglobulin IgGK with microtubular ultrastructure associated with pyoderma gangrenosum . . . 25
4 - hydroxyaminoquinoline - 1 - oxide - induced ultrastructural changes in the guinea-pig exocrine pancreas . . 109
interstitial nephritis associated with experimental canine adenovirus infection 221
mesangial cell cytoplasm and glomerular disease 229
ultrastructure of the haemophilic synovial membrane and electron-probe X-ray analysis of haemosiderin . 201
ELECTRON PROBE X-RAY ANALYSIS of siderosomes in the haemophilic synovial membrane 201

PAGE

EMPHYSEMA, cross sectional area of diaphragmatic muscle fibres measured by an automated image analysis system . 121
ENZYMES, LYSOSOMAL, biochemical and cellular changes in skin and lymph during Arthus and mixed hypersensitivity reactions in rabbits . . . 49
from cell populations containing multinucleate giant cells.. 193
EOSINOPHILS, histochemical study of inflammatory cells in duct-ligated salivary glands of the cat 115
EPIDERMIS, histopathology of zinc deficiency in ducks 183
EPIGNATHUS, double pituitary and agenesis of corpus callosum 161

FOREIGN BODY granulomata, immunological and non-immunological phagocytosis by inflammatory macrophages, epithelioid cells and macrophage polykaryons 151

GIANT CELLS, MULTINUCLEATE, selective release of lysomal enzymes from cell populations 193
GLOMERULONEPHRITIS and the mesangial cell cytoplasm 229
experimental in dogs produced by injection of heterologous antisera to dog tubular fraction 3 antigen . . 17
GLOMERULUS, EPITHELIAL CELLS, foot processes after the injection of bovine serum albumin or egg albumin . . 209
β-GLUCURONIDASE, biochemical and cellular changes in skin and lymph during Arthus and mixed hypersensitivity reactions in rabbits 49
selective release of lysosomal enzymes from cell populations containing multinucleate giant cells 193
GLUCURONYL TRANSFERASE, analgesic-induced renal papillary necrosis in the Gunn rat, comparative nephrotoxicity of aspirin and phenacetin . . 145
bilirubin-associated renal papillary necrosis in the homozygous Gunn rat, light- and electron-microscopic observations 165
GLUTATHIONE, formation of a platelet adhesive factor by disruption of the creatine phosphokinase molecule . 1
GRANULOMA(S) foreign body, immunological and non-immunological phagocytosis by inflammatory macrophages, epithelioid cells and macrophage polykaryons 151
GUINEA-PIG, 4-hydroxyaminoquinoline-1-oxide-induced ultrastructural changes in the exocrine pancreas . . . 109

PAGE

HAEMOPHILIA, ultrastructure of the synovial membrane and electron-probe X-ray analysis of haemosiderin . 201
HAEMOSIDERIN electron-probe X-ray analysis in study of synovial membrane in a patient with a known history of type A haemophilia 201
HEART, biopsy in skeletal myopathy, report of a case with myocardial mitochondrial abnormalities . . . 35
experiences with isoprenaline induced myocardial necrosis in the rat . . 65
HERNIA, mucosal, in the colons of non-human primates 177
HISTOCHEMISTRY, study of inflammatory cells in duct-ligated salivary glands of the cat 115
HODGKIN'S DISEASE, ultrastructural analysis of lymphoreticular cell interactions in primary cultures of human non-lymphoid neoplasms and lymphomas 75
4 - HYDROXYAMINOQUINOLINE - 1 - OXIDE - induced ultrastructural changes in the guinea-pig exocrine pancreas . . 109
HYPERSENSITIVITY reactions in rabbits, biochemical and cellular changes in skin and lymph 49

IMMUNE COMPLEX NEPHRITIS produced experimentally in dogs by injection of heterologous antisera to dog tubular fraction 3 antigen 17
IMMUNE RESPONSE, immunological and non-immunological phagocytosis by inflammatory macrophages, epithelioid cells and macrophage polykaryons from foreign body granulomata . 151
immunopathologic study in interstitial nephritis associated with experimental canine adenovirus infection . . 221
mouse malaria nephropathy . . 235
IMMUNOFLUORESCENCE TECHNIQUES, experimental kidney disease in dogs produced by injection of heterologous antisera to dog tubular fraction 3 antigen 17
immunopathological study of interstitial nephritis associated with experimental canine adenovirus infection . . 221
immunopathological study of interstitial nephritis due to *Leptospira canicola* . 83
mouse malaria nephropathy . . 235
INFLAMMATION, histochemical study of inflammatory cells in duct-ligated salivary glands in the cat . . . 115
immunological and non-immunological phagocytosis by inflammatory macrophages, epithelioid cells and macrophage polykaryons from foreign body granulomata 151

PAGE

INTERSTITIAL CELLS, RENAL, PAPILLARY, aspirin damage in the rat kidney in the intact animal and after unilateral nephrectomy 43
INTERSTITIAL NEPHRITIS associated with experimental canine adenovirus infection, an immunopathological study . 221
due to *Leptospira canicola* 83
ISOPRENALINE induced myocardial necrosis in the rat 65

KIDNEY, analgesic-induced renal papillary necrosis in the Gunn rat, comparative nephrotoxicity of aspirin and phenacetin 145
aspirin damage in the rat kidney in the intact animal and after unilateral nephrectomy 43
bilirubin-associated renal papillary necrosis in the homozygous Gunn rat, light- and electron-microscopic observa-ions 165
experimental kidney disease in dogs produced by injection of heterologous antisera to dog tubular fraction 3 antigen 17
immunopathological study of interstitial nephritis associated with experimental canine adenovirus infection . . 221
immunopathological study of interstitial nephritis due to *Leptospira canicola* . 83
mesangial cell cytoplasm and glomerular disease 229
morphometry of the glomerular epithelial cell and its foot processes after the injection of bovine serum albumin or egg albumin 209

LACTATE DEHYDROGENASE, biochemical and cellular changes in skin and lymph during Arthus and mixed hypersensitivity reactions in rabbits . . . 49
selective release of lysosomal enzymes from cell populations containing multinucleate giant cells . . . 193
LARYNX, histopathology of zinc deficiency in ducks 183
LEPTOSPIROSIS, CANINE, immunopathological study of interstitial nephritis due to *Leptospira canicola* 83
LEUCOCYTES, degranulation of chicken heterophil leucocytes during phagocytosis, studied by phase contrast and interference microscopy . . . 129
LYMPH, biochemical and cellular changes during Arthus and mixed hypersensitivity reactions in rabbits . . . 49
LYMPH NODES, effects of tumour extract on macrophage proliferation . . 251

PAGE

ultrastructural analysis of lymphoreticular cell interactions in primary cultures of human non-lymphoid neoplasms and lymphomas 75
LYMPHOMAS, human, ultrastructural analysis of lymphoreticular cell interactions in primary cultures 75
LYMPHORETICULAR CELLS, morphology and interactions in cultures of human tissue studied by transmission and surface scanning electron microscopy 75
LYSOSOMES, selective release of lysosomal enzymes from cell populations containing multinucleate giant cells . 193

MACROPHAGES, effects of tumour extract on macrophage proliferation in lymph-nodes 251
immunological and non-immunological phagocytosis by inflammatory macrophages, epithelioid cells and macrophage polykaryons from foreign body granulomata 151
inflammatory cells in duct-ligated salivary glands of the cat, histochemical study 115
selective release of lysosomal enzymes from cell populations containing multinucleate giant cells 193
ultrastructural analysis of lymphoreticular cell interactions in primary cultures of human non-lymphoid neoplasms and lymphomas . . . 75
MALARIA nephropathy in the mouse . 235
MESANGIUM, cell cytoplasm and glomerular disease 229
experimental kidney disease in dogs produced by injection of heterologous antisera to dog tubular fraction 3 antigen 17
MICE, immunological and non-immunological phagocytosis by inflammatory macrophages, epithelioid cells and macrophage polykaryons from foreign body granulomata 151
nephropathy in malaria 235
selective release of lysosomal enzymes from cell populations containing multinucleate giant cells 193
MICROSCOPY, INTERFERENCE and phase contrast study of degranulation of chicken heterophil leucocytes during phagocytosis 129
MICROSCOPY, PHASE CONTRAST and interference microscopy used in the study of degranulation of chicken heterophil leucocytes during phagocytosis . . 129
MICROTUBULAR ULTRASTRUCTURE, cryo-immunoglobulin IgGK in pyoderma gangrenosum 25

PAGE

MITOCHONDRIA, cardiac biopsy in skeletal myopathy 35
MONKEY(S), mucosal herniations in the colon 177
MORPHOMETRY, cardiac biopsy in skeletal myopathy, report of a case with myocardial mitochondrial abnormalities . 35
experiences with isoprenaline induced myocardial necrosis in the rat . . 65
glomerular epithelial cell and its foot processes after the injection of bovine serum albumin or egg albumin . . 209
MUCIN, histochemical study of inflammatory cells in duct-ligated salivary glands of the cat 115
MUSCLE, cross sectional area of diaphragmatic muscle fibres in emphysema, measured by an automated image analysis system 121
formation of a platelet adhesive factor by disruption of the creatine phosphokinase molecule 1
MYOCARDIUM, experiences with isoprenaline induced necrosis in the rat . . 65
mitochondrial abnormalities, cardiac biopsy in skeletal myopathy . . 35
MYOPATHY, cardiac biopsy, report of a case with myocardial mitochondrial abnormalities 35

NASAL SINUS, histopathology of zinc deficiency in ducks 183
NECROSIS, MYOCARDIAL, isoprenaline-induced in the rat 65
NEPHRITIS, INTERSTITIAL due to *Leptospira canicola*, immunopathological study . 83
NEPHROPATHY, MALARIAL studied in 818 mice, various drugs tested to establish whether they inhibited development . 235

PANCREAS, exocrine, 4-hydroxyaminoquinoline-1-oxide-induced ultrastructural changes in the guinea-pig . 109
histopathology of zinc deficiency in ducks 183
PAPILLARY NECROSIS, RENAL, analgesic-induced in the Gunn rat, comparative nephrotoxicity of aspirin and phenacetin 145
aspirin damage in the rat kidney in the intact animal and after unilateral nephrectomy 43
bilirubin-associated in the homozygous Gunn rat, light- and electron-microscopic observations 165
PAROTID GLAND, histochemical study of inflammatory cells in duct-ligated salivary glands of the cat 115
PHAGOCYTOSIS, degranulation of chicken heterophil leucocytes studied by phase contrast and interference microscopy . 129
immunological and non-immunological, inflammatory macrophages, epithelioid cells and macrophage polykaryons from foreign body granulomata . 151
PHENACETIN and aspirin nephrotoxicity compared in the Gunn rat . . 145
PITUITARY, double, epignathus and agenesis of corpus callosum . . . 161
PLASMODIUM BERGHEI YOELII, mouse malaria nephropathy 235
PLATELET ADHESIVE FACTOR, formation by disruption of the creatine phosphokinase molecule 1
POLYKARYONS, immunological and non-immunological phagocytosis by inflammatory macrophages, epithelioid cells and macrophage polykaryons from foreign body granulomata . 151
PYODERMA GANGRENOSUM, cryoimmunoglobulin IgGK with microtubular untrastructure associated with . . 25

QUANTIMET IMAGE ANALYSER, cross sectional area of diaphragmatic muscle fibres in emphysema measured by . 121

RABBITS, biochemical and cellular changes in skin and lymph during Arthus and mixed hypersensitivity reactions . 49
formation of a platelet adhesive factor by disruption of the creatine phosphokinase molecule 1
RAT(S), aspirin damage in the kidney in the intact animal and after unilateral nephrectomy 43
effects of tumour extract on macrophage proliferation in lymph nodes . . 251
experiences with isoprenaline induced myocardial necrosis . . . 65
Gunn, comparison of nephrotoxicity of aspirin and phenacetin . . . 145
homozygous Gunn, light- and electron-microscopic observations of bilirubin-associated renal papillary necrosis . 165
morphometry of the glomerular epithelial cell and its foot processes after the injection of bovine serum albumin or egg albumin 209
RENAL TUBULAR ANTIGEN, FRACTION 3, experimental disease in dogs produced by injection of heterologous antisera to dog 17
REVIEWS OF BOOKS—
Normal and abnormal development of the human nervous system by Ronald J. Lemire *et al.* (Harper & Row, Hagerstown) 255

PAGE

Host defence in breast cancer, New aspects of breast cancer, Vol. 1. Edited by Basil A. Stoll (William Heinemann Medical Books Limited) . 255
Toxicology by L. J. Casarett and J. Doull (N.Y.: Macmillan) 256
Pathogenesis and mechanisms of liver cell necrosis. Edited by D. Keppler (Medical and Technical Publishing Co. Ltd) 256

SALIVARY GLANDS of the cat, histochemical study of inflammatory cells after duct-ligation 115
SKIN and lymph, biochemical and cellular changes during Arthus and mixed hypersensitivity reactions in rabbits . 49
SYNOVIAL MEMBRANE in haemophilia, ultrastructural study, and electron-probe X-ray analysis of haemosiderin . . 201

TISSUE CULTURE, selective release of lysosomal enzymes from cell populations containing multinucleate giant cells . 193
ultrastructural analysis of lymphoreticular cell interactions in primary cultures of human non-lymphoid neoplasms and lymphomas 75
TONGUE, histopathology of zinc deficiency in ducks 183
TUMOURS, ANIMAL, INDIVIDUAL, effects of tumour extract on macrophage proliferation in lymph nodes . . . 251
TUMOURS, HUMAN, INDIVIDUAL, ultrastructural analysis of lymphoreticular cell interactions in primary cultures of non-lymphoid neoplasms and lymphomas 75

VERTEBRAE, pathology of the cervical spine in rheumatoid arthritis, a controlled study of 44 spines 91

ZINC deficiency in ducks, histopathological study 183

INDEX OF AUTHORS
